27A.30.010 Financial guarantee conditions.

A. Every financial guarantee shall obligate the applicant to comply with all of the provisions of the King County Code and complete all conditions required by the permit or approval within the time limit specified.

B. The county may collect against the financial guarantee when work is not completed in a timely manner in accordance with conditions of the permit and/or approval granted pursuant to Titles 9, 14, 16, 19, or 21A (or their successors). It is in the director's sole reasonable discretion to determine whether the permit or approval conditions have been satisfied in a timely manner, and to determine whether the performance guarantee shall be collected to remedy the violation. The director shall notify the applicant in writing of any such determination. (Ord. 12020 § 12, 1995).

27A.30.020 Financial guarantees-form and amount. Financial guarantees shall be in a form approved by the director, in consultation with the department of natural resources and parks, department of transportation, the prosecuting attorney's office, and other affected agencies. The amounts of the financial guarantees shall be based on the schedules appropriate to the required work which are updated on a periodic and frequent basis to ensure that the amount fully captures likely costs. Financial guarantees shall also require a contingency in an amount to be determined by the director. (Ord. 14199 § 249, 2001: Ord. 12020 § 13, 1995).

27A.30.030 Performance guarantee reductions. The director may allow reductions in performance guarantee amounts in accordance with the county's cost estimate of the work remaining to be completed. No more than one reduction will be allowed except that two reductions may be allowed at the director's discretion for phased subdivisions. The reduction shall not exceed 70% of the initial guarantee value including contingency. The request for reduction shall be in writing, accompanied by a schedule for completion of remaining work. (Ord. 12020 § 14, 1995).

27A.30.040 Release of financial guarantees. The department shall not release performance guarantees until all permit fees have been paid to date; maintenance guarantees and defect guarantees have been posted, if applicable; inspection of the development site has been performed; and the director has determined that the conditions and requirements of the permit/approval otherwise specified in the financial guarantee have been met and granted final construction approval if applicable. (Ord. 12020 § 15, 1995).

27A.30.050 Scheduling of final performance, maintenance, and defect inspections. The department shall be responsible for scheduling final performance, and maintenance and defects inspections. The department should schedule such inspections approximately forty-five days prior to expiration of the performance or maintenance period. If necessary to determine completion of performance, additional inspections should also be made after the expiration of the performance period. Periodic inspections may also be made at the discretion of the director of the department of development and environmental services, the director of the department of natural resources and parks or the director of the department of transportation. (Ord. 14199 § 250, 2001: Ord. 12020 § 16, 1995).

27A.30.060 Financial guarantee waivers. Consistent with chapter 36.32 RCW, King County shall not require any state agency, unit of local government, or gas company or electrical company (as those terms are defined in RCW 80.04.010) to secure the performance of a permit requirement with a financial guarantee as a condition of issuing a permit or approval for a building construction project. The director, however, may require such state agency or unit of local government, gas company or electric company to sign an agreement to complete required improvements and protect the County's rights and duty to remedy unsatisfactory performance. (Ord. 12020 § 17, 1995).

27A.30.070 Status of current financial guarantees. All financial guarantees required by the department and posted by the applicant prior to the effective date of this ordinance shall continue to be in force until released by the director following satisfactory compliance with financial guarantee conditions. (Ord. 12020 § 18, 1995).

27A.30.080 Performance guarantees authorized.

A. The department is authorized to require all applicants constructing improvements pursuant to any permits and approvals granted pursuant to Titles 9, 14, 16, 19, or 21A (or their successors) of the King County Code to post performance guarantees with the director to guarantee completion of required improvements and compliance with the King County Code.

B. If more than one such guarantee is required, the applicant may, with the permission of the director, and to the extent allowable by law, combine guarantees; provided, that at no time shall the guaranteed amount be less than the total amount which would have been required in the form of separate financial guarantees; and provided further, that such guarantee shall on its face clearly delineate those separate additional financial guarantees which it is intended in lieu of.

C. Unless otherwise specifically indicated in the King County Code, performance guarantees shall require actual construction and installation of required improvements within two years after recording for final subdivision, two years after recording for short subdivision, one year after right-of-way permit issuance or six months after temporary building occupancy issued for a building permit. The time limit for performance guarantee compliance may be extended by six months at the director's discretion, if circumstances beyond the control of the applicant warrant an extension. The request for an extension shall be in writing, accompanied by a schedule for completion of remaining work. (Ord. 12020 § 19, 1995).

27A.30.085 Timeline extension - requirements - considered default (expires December 31, 2011). For plats and short plats that received final recording after January 1, 2007, right of way permits issued after January 1, 2008, or building permits that received temporary occupancy after July 1, 2008, the performance guarantee compliance timelines in K.C.C. 27A.30.080 may be extended as follows:

A. Unless otherwise specifically indicated in the King County Code, performance guarantees shall require actual construction and installation of required improvements within four years after recording for final subdivision, four years after recording for short subdivision, two years after right-of-way permit issuance or one year after temporary building occupancy issued for a building permit;

B. The applicant shall:

1. File with the department a written request to extend performance guarantee compliance timelines;

2. Be otherwise in compliance with the permit plans and conditions of approval and no hazards exist on the site;

3. Be current on all invoices for work performed by the department; and

4. Agree to complete all of the required work within the time specified or to toll the financial guarantee timeline for the term of this extension;

C. Projects for which performance guarantee timelines are extended under this section will be considered to be in default as defined by K.C.C. 27A.20.020. During the extension period the county shall not pursue financial guarantee enforcement actions but may perform routine monitoring of projects for hazards; and

D. This section expires December 31, 2011. (Ord. 16515 § 5, 2009).

27A.30.090 Maintenance and defect guarantees authorized.

A. The department is authorized to require all applicants to post a maintenance guarantee and/or defect guarantee warranting the successful operation and maintenance of improvements, and guaranteeing the workmanship, materials, and design used in construction of improvements required by the conditions of any permits or approvals issued pursuant to titles 9, 14, 16, 19, or 21A; (or their successors) and assuring compliance with the King County Code.

B. Unless otherwise specifically indicated in the King County Code, all maintenance guarantees and defect guarantees shall guarantee successful operation, workmanship, materials, and design of required facilities for a period of two years following final inspection and approval of improvements.

C. Inspections of facilities required pursuant to Titles 9, 14, 16, 19, or 21A (or their successors) should be scheduled by the appropriate department approximately forty-five days prior to the end of the two year maintenance and/or defect period. (Ord. 12020 § 20, 1995).

27A.30.100 Default.

A. Determination of default shall be made by the department after an inspection has indicated that improvements need to be corrected or completed. In the event of failure to comply with any of the conditions and terms of the permits and/or approvals covered by this title, the director shall notify the applicant and guarantor in writing of the default. If satisfactory assurance is not received by the department within a time period determined by the director, that conditions will be appropriately corrected, the department may:

1. order the applicant to perform all necessary corrective work, and/or
2. demand payment on the financial guarantee(s). Nothing in this title shall limit the ability of King County to enforce or otherwise compel compliance with conditions of any county permit or approval in accordance with any enforcement provision set forth in Title 23 of the King County Code.

B. The guarantor shall be responsible, up to the limits of the financial guarantee, for the payment of any and all necessary costs and expenses that have been or will be incurred or expended by King County in causing any and all such required work to be done. In the event that total costs associated with the required work exceed the guarantee amount, the applicant shall remain responsible to King County for the payment of any remaining amount.

C. In the event of default, King County may contract with a third party to complete work required pursuant to this title. (Ord. 12020 § 11, 1995).
